

Edit Table Properties

Use this page to change the table, column, or row filter mappings

Table Name: Switch to:

Sql statement:

```
let
Source = #"SQL/DESKTOP-5KDLN8N\MSSQLSERVER2019;AdventureWorksDW2019",
dbo_DimCustomer = Source{[Schema="dbo",Item="DimCustomer"]}[Data],
#"Removed Columns" = Table.RemoveColumns(dbo_DimCustomer,{"SpanishEducation", "FrenchEducation", "SpanishOccupation", "FrenchOccupation"})
in
#"Removed Columns"
```

DimCustomer is the table on which I applied filters

switch to is DISABLED
