If you call a support person, give them this info:

Stop code: NTFS_FILE_SYSTEM

Windows Boot Manager

Windows failed to start. A recent hardware or software change might be the cause. To fix the problem:

1. Insert your Windows installation disc and restart your computer.
2. Choose your language settings, and then click "Next."
3. Click "Repair your computer."

If you do not have this disc, contact your system administrator or computer manufacturer for assistance.

Status: 0xc0000001

Info: After multiple tries, the operating system on your PC failed to start, so it needs to be repaired.
