Task "ResolvePackageFileConflicts"

Encountered conflict between 'Platform:microsoft.dll' and 'Platform:microsoft.dll'. Could not determine winner due to equal file and assembly versions.

Encountered conflict between 'Platform:Microsoft.VisualBasic.dll' and 'Platform:Microsoft.VisualBasic.dll'. Could not determine winner due to equal file and assembly versions.

Encountered conflict between 'Platform:System.dll' and 'Platform:System.dll'. Could not determine winner due to equal file and assembly versions.

Encountered conflict between 'Platform:System.ComponentModel.DataAnnotations.dll' and 'Platform:System.ComponentModel.DataAnnotations.dll'. Could not determine winner due to equal file and assembly versions.

Encountered conflict between 'Platform:System.Configuration.dll' and 'Platform:System.Configuration.dll'. Could not determine winner due to equal file and assembly versions.

Encountered conflict between 'Platform:System.Core.dll' and 'Platform:System.Core.dll'. Could not determine winner due to equal file and assembly versions.

Encountered conflict between 'Platform:System.Data.dll' and 'Platform:System.Data.dll'. Could not determine winner due to equal file and assembly versions.

Encountered conflict between 'Platform:System.Drawing.dll' and 'Platform:System.Drawing.dll'. Could not determine winner due to equal file and assembly versions.

Encountered conflict between
'Platform:System.IO.Compression.FileSystem.dll' and
'Platform:System.IO.Compression.FileSystem.dll'. Could not determine
winner due to equal file and assembly versions.

Encountered conflict between 'Platform:System.Net.dll' and
'Platform:System.Net.dll'. Could not determine winner due to equal
file and assembly versions.

Encountered conflict between 'Platform:System.Numerics.dll' and
'Platform:System.Numerics.dll'. Could not determine winner due to
equal file and assembly versions.

Encountered conflict between
'Platform:System.Runtime.Serialization.dll' and
'Platform:System.Runtime.Serialization.dll'. Could not determine
winner due to equal file and assembly versions.

Encountered conflict between 'Platform:System.Security.dll' and
'Platform:System.Security.dll'. Could not determine winner due to
equal file and assembly versions.

Encountered conflict between
'Platform:System.ServiceProcess.dll' and
'Platform:System.ServiceProcess.dll'. Could not determine winner due
to equal file and assembly versions.

Encountered conflict between
'Platform:System.ServiceModel.Web.dll' and
'Platform:System.ServiceModel.Web.dll'. Could not determine winner
due to equal file and assembly versions.

Encountered conflict between 'Platform:System.Transactions.dll'
and 'Platform:System.Transactions.dll'. Could not determine winner
due to equal file and assembly versions.

Encountered conflict between 'Platform:System.Web.dll' and
'Platform:System.Web.dll'. Could not determine winner due to equal
file and assembly versions.

Encountered conflict between 'Platform:System.Windows.dll' and
'Platform:System.Windows.dll'. Could not determine winner due to
equal file and assembly versions.

Encountered conflict between 'Platform:System.Xml.dll' and
'Platform:System.Xml.dll'. Could not determine winner due to equal
file and assembly versions.

Encountered conflict between
'Platform:System.Xml.Serialization.dll' and
'Platform:System.Xml.Serialization.dll'. Could not determine winner
due to equal file and assembly versions.

Encountered conflict between 'Platform:System.Xml.Linq.dll' and
'Platform:System.Xml.Linq.dll'. Could not determine winner due to
equal file and assembly versions.

Encountered conflict between 'Platform:WindowsBase.dll' and
'Platform:WindowsBase.dll'. Could not determine winner due to equal
file and assembly versions.

Encountered conflict between 'Platform:netstandard.dll' and
'Platform:netstandard.dll'. Could not determine winner due to equal
file and assembly versions.

Encountered conflict between
'Platform:System.Private.CoreLib.dll' and
'Platform:System.Private.CoreLib.dll'. Could not determine winner
due to equal file and assembly versions.

Encountered conflict between
'Platform:System.Private.DataContractSerialization.dll' and
'Platform:System.Private.DataContractSerialization.dll'. Could not
determine winner due to equal file and assembly versions.

Encountered conflict between 'Platform:System.Private.Uri.dll'
and 'Platform:System.Private.Uri.dll'. Could not determine winner
due to equal file and assembly versions.

Encountered conflict between 'Platform:System.Private.Xml.dll'
and 'Platform:System.Private.Xml.dll'. Could not determine winner
due to equal file and assembly versions.

Encountered conflict between
'Platform:System.Private.Xml.Linq.dll' and
'Platform:System.Private.Xml.Linq.dll'. Could not determine winner
due to equal file and assembly versions.

Encountered conflict between
'Platform:microsoftcoreclr_amd64_amd64_7.0.423.11508.dll' and
'Platform:microsoftcoreclr_amd64_amd64_7.0.423.11508.dll'. Could not
determine winner due to equal file and assembly versions.
