Introduction

Activation Walkthrough

Activate Benefits

Please go through the [Azure Activation guide](#) to learn more about Azure benefits.

1. Manage user assignment

Assign benefit to any users that are a part of your Azure Active directory tenant

(i) Assign user(s)

You can assign only 1 user from your AAD tenant to this subscription

Search

Assign user

You can not assign anymore users since you have already assigned user

(ii) View/Remove User

Name	Email ID	Action
asim	asim@CloudonesoftwareLLC.onmicrosoft.com	Remove

You can not assign anymore users since you have already assigned user

For Azure bulk credits, users assigned to a subscription cannot be removed from Partner Center. Bulk credits can only be transferred to another user during the enrollment year. Please reach out to support for user re-assignment.

2. Send link to users

Send the below activation link to the assigned user along with the steps to activate the benefit

You have been assigned an Azure subscription. Click on the [Azure portal](#) to activate the benefit and follow [these](#) steps for activation
