## Both leelaurelsgs.com & <u>www.leelaurelsgs.com</u> are securely listed

Now strangely I am not able to get the expected results when I search both leelaurelsgs.com & <u>www.leelaurelsgs.com</u> on my browser (Chrome & Edge). Something is not quite right I will suppose.

See highlighted below does it have anything to do with the inability to access these sites. (I strongly do not think so but want just to troubleshoot) I am currently not located in the US.
