Subject: It's here! V2 of Veeam Backup for Salesforce is now available!

Hello,

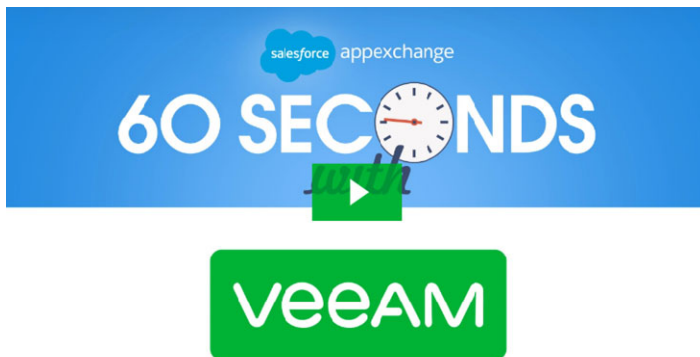

I wanted to reach out personally to let you know that the [Veeam® Backup for Salesforce V2](#) is now available and we have some amazing additions! Salesforce business application support, Salesforce SSO and MFA, and Sandbox Seeding are just a few. [Get started with a FREE 30-day trial now.](#)

Veeam has already mastered data protection for virtual, physical and cloud workloads, so the addition of our Salesforce backup offering just made sense. Why backup all your other critical data but leave your Salesforce data unprotected?

Veeam Backup *for Salesforce* eliminates the risk of losing your data and metadata due to human error, integration issues and other data loss scenarios.

- Want to **deploy your backup anywhere** you choose? We got you!
- Looking for **flexible recovery** for what you need, when and where you need it? No problem!

[Watch this short video](#) for an overview of Veeam Backup *for Salesforce*:

And if you missed our webinar [Critical tips to protect your Salesforce data and metadata](#), watch the recording to hear from a Salesforce MVP Hall of Fame member about the critical role of Salesforce backup and learn about the latest features in Veeam Backup *for Salesforce* v2! What are you waiting for? Let's get your organization's data backed up and put you in line for that next promotion!

Best,
Alison
